

FOR IMMEDIATE RELEASE

### **Postponement and Rescheduling of the 32<sup>nd</sup> Annual AMUG Conference and Business Meeting**

(Milwaukee, Wisc.) March 12, 2020 — The Additive Manufacturing Users Group (AMUG) today announced the **postponement and rescheduling of the 32<sup>nd</sup> annual AMUG Conference and its annual Business Meeting**. Due to unprecedented circumstances around the globe, in the United States and in the greater Chicago area, AMUG leadership has determined it is in the best interest of its members, sponsors, exhibitors and event partners to postpone the conference.

“This was a very difficult decision, but the Board of Directors agreed that in the best interest of our members and those that support the event we will postpone our annual Conference and Business Meeting, which were scheduled for March 22-26, 2020, in Chicago, Illinois,” stated Carl Dekker, AMUG President.

“We would like to thank everyone for their continued support of the users group, their patience and their understanding. There are a lot of details to work out, and we will be reaching out to our members, sponsors and exhibitors shortly with more information.”

The new dates for the AMUG Conference will be March 14-18, 2021. The location will be unchanged—Hilton Chicago, Chicago, Illinois, USA. The annual Business Meeting will be rescheduled to a date that is yet to be determined.

Dekker noted that the scale of the AMUG Conference and the uncertainty of the unprecedented situation prevented rescheduling the conference to a 2020 date. “We are disappointed that the event will be postponed to the following year. While this was considered, it proved to be impractical and unrealistic.”

Funds that have been remitted to AMUG to attend, exhibit or sponsor the 2020 AMUG Conference will be applied towards participation in 2021. This postponement structure provides registered attendees AMUG membership benefits for two full years. Likewise, exhibitors and sponsors will receive promotional benefits for an additional 12 months.

## **ABOUT ADDITIVE MANUFACTURING USERS GROUP (AMUG)**

AMUG is an organization that educates and advances the uses and applications of additive manufacturing technologies. AMUG members include those with industrial additive manufacturing/3D printing technologies and materials used for professional purposes from companies such as 3D Systems, 3YOURMIND, BASF 3D Printing Solutions, Carbon, CATI, DMG MORI, DSM Additive Manufacturing, Dyndrite, EOS, Essentium, ExOne, Formlabs, GE Additive, HP Inc., Renishaw, SLM Solutions, Stratasys, and VELO3D. AMUG meets annually to provide education and training through technical presentations on processes and new technologies. This information addresses the operation of additive manufacturing equipment and the applications that use the parts they make. Online at [www.amug.com](http://www.amug.com).
