2021 AMUG Education and Training Conference

Registration opens January 6, 2021

The 2019 AMUG Conference in Chicago was the largest attended conference by attendees, sponsors and exhibitors. Five nights and four days of packed activities: hands-on training sessions, business perspectives, tips from industry leaders, and networking with other owners and operators of AM equipment.

As one of our trusted partners helping to grow the AM industry through education and training, we hope to see you at the 2021 AMUG Conference as a sponsor or an exhibitor. We’ve worked diligently to offer sponsors and exhibitors a wide variety of marketing opportunities, each designed to provide unparalleled access to the best and brightest in additive manufacturing and 3D printing.

We are pleased to offer a wide range of sponsorship opportunities that help companies educate and train their current users while introducing new and exciting products, applications and materials. This is also a great opportunity for companies to engage with the AM community to meet new prospects and help define the future of AM.

See you in Orlando!

What is AMUG?

The cornerstone of AMUG is the annual Education & Training Conference. AMUG members meet annually to share information, tips and tricks on additive manufacturing processes, applications, materials, ancillary equipment, and industry trends. To call the AMUG event a conference is an understatement. It is a unique gathering of all levels of industrial AM users that assemble and band together to provide and share valuable insights and experience to help one another.

The AMUG Conference provides the opportunity for leaders in the additive manufacturing industry to showcase their products and services to the owners, operators, and key decision makers of AM technology.

Diamond Sponsors, continue your customer training at AMUG with the Training Lab. Diamond Sponsors will host two 1-hour, hands-on training labs. Design your program for advanced insight and training on your AM equipment, in-depth tips and tricks, and troubleshooting customer issues.

The AMUGexpo is not a trade show where you stroll aisle after aisle, often alone, in hopes of stumbling on a new solution while deciphering polished marketing messages for the facts. Instead, the AMUGexpo is another element that makes the AMUG Conference unique. It builds on the core principles of sharing, information exchange and networking. The AMUG Conference is known for its openness and members’ willingness to share insights, challenges, and successes; you will see this first-hand at the AMUGexpo.

The AMUG Technical Competition provides a forum for users of AM technologies to display their unique applications as well as their finishing capabilities. Users may submit their entries in the Advanced Concepts category or the Advanced Finishing category. Each category will be open to all AM technologies with a winner and runner-up being selected from each. The AMUG Technical Competition takes place on Monday night at the AMUGexpo.

**NETWORKING ACTIVITIES**
During the AMUGexpo (Sunday and Monday) and Networking Dinners (Wednesday and Thursday night) at the conference, AMUG has select networking sponsorships available. The sponsored networking activities are designed to engage AMUG attendees during the night-time events, such as the 3D Platform giant AM chess match, as seen and participated in at AMUG 2017 and 2018. During the 2018 AMUG Conference, BASF entertained attendees with Anthony Gomes playing a 3D printed guitar LIVE from St Louis Union Station. In 2019, 3D Systems sponsored “Lights. Camera. Action - An Evening with Karl Meyer”. Networking opportunities are limited and will be approved by the AMUG Board. Not all sponsorships are monetary; some are in the form of material donations or company assistance for particular programs during the events. For more details contact AMUG, agenda@amug.com.
